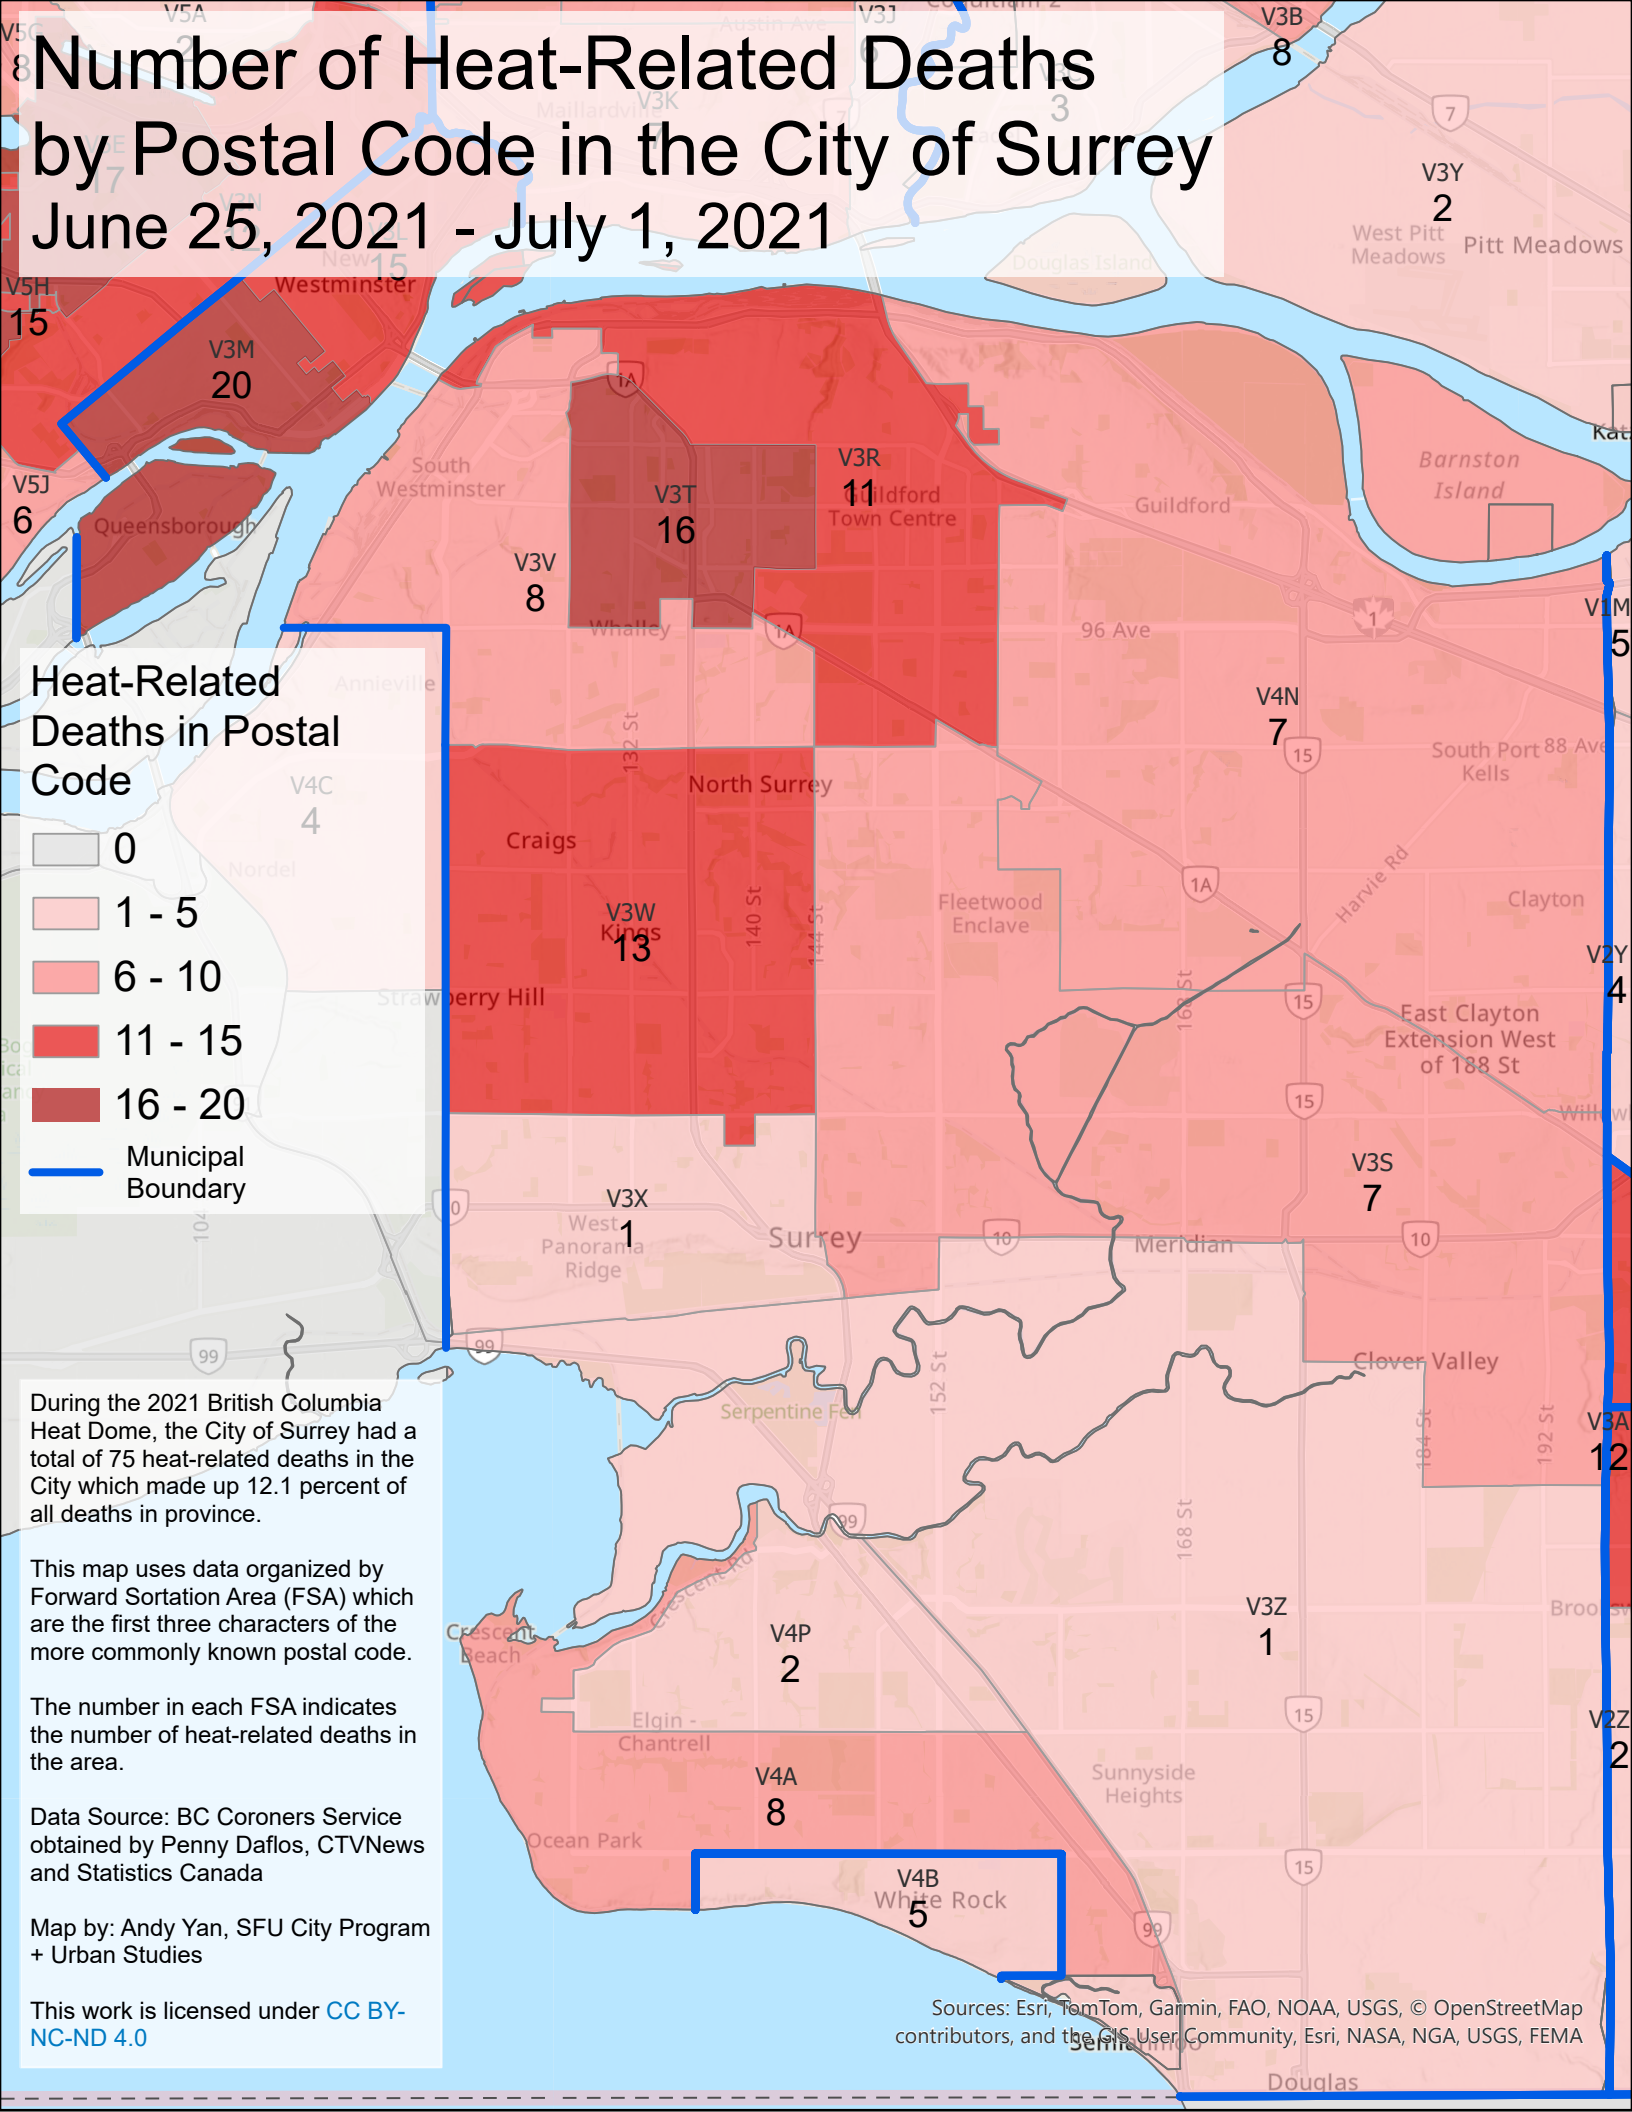
# Number of Heat-Related Deaths by Postal Code in the City of Surrey

## June 25, 2021 - July 1, 2021



During the 2021 British Columbia Heat Dome, the City of Surrey had a total of 75 heat-related deaths in the City which made up 12.1 percent of all deaths in province.

This map uses data organized by Forward Sortation Area (FSA) which are the first three characters of the more commonly known postal code.

The number in each FSA indicates the number of heat-related deaths in the area.
