## Welcome to the 2018 Liaison Program Evaluation Survey!

As the Liaison Program continues to evolve in response to Library and University priorities, this brief survey is intended to:

- Identify and assess the strengths and challenges of the liaison program model;
- Elicit ways in which liaison librarians would like support in their roles;
- Determine the degree to which the liaison model and current liaison activities meet the emerging needs of the Library.

The following questions ask you about your position and location. Please select the answer that best matches your position. We recognize that some portfolios are split across campuses or job descriptions; use your judgement to select the one that best represents the majority of your work. The questions are posed as they are in order to retain anonymity for certain roles.

In an effort to ensure the anonymity of your responses, the following questions will be used only to aggregate responses to subsequent questions. Results will not be analyzed in such a way as to identify a respondent (i.e. analysis could be done by position type only or location only, but not by position type and location).

- 1. Please indicate which position best matches your job description. (Radio buttons single choice only)
  - o Departmental librarian
  - Functional librarian
  - Liaison librarian head or Division head
- **2. Please indicate which of the following locations is your base campus location.** (Radio buttons single choice only)
  - Bennett Library
  - Belzberg or Fraser Libraries
- 3. Please indicate whether you are in a continuing or contract position. (Radio buttons single choice only)
  - o Permanent continuing position
  - Limited term contract position

The next questions ask you about areas of liaison librarian work.

apply: (	(Checkboxes – multiple answer OK)
	Developing and using curriculum mapping strategies to plan instruction
	Communicating with faculty about library instruction goals and services
	Collaborating with colleagues to share teaching strategies and resources
	Collaborating with colleagues to plan and deliver instruction sessions across functional/departmental
	roles (such as discipline-specific GIS or scholarly publishing workshops)
	Delivering introductory, and/or first year instruction sessions
	Designing lesson plans and classroom activities
	Designing and/or integrating online and blended instruction
	Developing pre- and post- workshop assessment tools
	Coordinating instruction responsibilities with reference librarians

Coordinating instruction responsibilities away from my base campus location

4. Over the past year, which areas of instruction, if any, did you wish you had more support for? Select all that

I don't have any instruction responsibilities

I had all the support I needed

Reference consultations/appointments Intensive research or literature searching projects (such as assisting with systematic or scoping reviews) Advising on citation management software tools and functionality Assessment of reference statistics, such as identifying trends or issues based on LibInsight statistics Evaluating the outcomes of my reference interactions Referring questions to front-line Research Help services Communicating with front line Research Help services about subject-specific information (such as trend in questions, or heads up on an assignment) Increasing my awareness of and ability to confidently refer to Special Collections, Archives, maps, Government documents, media, or other specialized collections I have all the support I need I don't have any reference responsibilities Further comments:  6. Over the past year, which aspects of engagement, if any, did you wish you had more support for? Select all		Further comments:
